

TechNova Support — Product Specifications

Document ID: INF-PRD-2024-V1 | Demo / Fictional Company Policy | Page 1

Section 1: NovaBook 15 Pro Specifications & RAM Upgrades

The NovaBook 15 Pro features dual user-upgradeable DDR5 SO-DIMM memory slots supporting up to 64GB RAM (5600MHz).

Opening the bottom chassis with the included Torx T5 screwdriver does NOT void the manufacturer hardware warranty, provided components are not physically fractured.

Section 2: Battery and GaN Charging

The 84Wh battery yields up to 14 hours of continuous productivity. A 100W GaN USB-C Power Delivery charger is included in the retail box, achieving 50% charge in 32 minutes.
